# Handicap Management

This user guide will outline the methods by which an admin can manage the Handicap Index and Low Handicap Index for individual golfers.

# Accessing Handicap Management

From the golfer profile, press the "Handicap Management" tab.

# Handicap Index & Low Handicap Index

The Handicap Index and Low Handicap Index are displayed in the upper right side of the golfer's profile. The Low Handicap Index circle will display the date of the Low H.I.

# Index Modifications

When the Handicap Index or Low H.I. are modified in any way (automatic or manual), a red information icon will display to the left of the golfer's handicap index. When clicked, a popup will open and display information about the modification such as the date and by whom it was modified, the raw H.I. (the H.I. prior to the modification) and when the modification is set to expire. Hard and Soft Caps will also be identified here.

Note: The term "RAW" is being reviewed and may change.

# **Revision Scores Table**

The Revision Scores table lists the 20 scores that were considered for the current revision. The scores that were used to calculate the current Handicap Index are marked with a blue star in the "Used" column. Click the white information icons in the header row for information regarding PCC, Diff., ESR and Committee Adjustments.

### Handicap Index History

A bar chart of the golfers H.I. over a rolling 12-month period is displayed at the bottom of the page. A bar will display the day after a score was posted, edited or deleted or anything changes in the revision scores. These changes may or may not cause a change in the handicap index.

# Modifying a Golfers H.I

#### **Applying Modification**

Press the "Modify H.I." button to apply a handicap index modification.
